

Label compliance checklist (EU)

Cosmetics (Reg. EC 1223/2009) · Food supplements (Reg. EU 1169/2011, Dir. 2002/46/EC) · Candles (EN 15494, CLP) · Packaging (national environmental labelling, e.g. Italy D.Lgs. 116/2020, France Triman)

Practical guidance for designers, not legal advice. Have the responsible person (for cosmetics, whoever notified the product on CPNP) verify texts and claims before printing.

A. Cosmetics: what must appear (Art. 19, Reg. 1223/2009)

- ☐ **Name and address of the responsible person** in the EU.
- ☐ **Country of origin** if made outside the EU.
- ☐ **Nominal content** by weight or volume (e.g. 50 ml). The e mark is optional (metrological control). Exempt: under 5 g/5 ml, free samples, single-use.
- ☐ **Date of minimum durability** with hourglass symbol if ≤ 30 months ("Best used before end of" + month/year), **or PAO** (open-jar + months) if > 30 months.
- ☐ **Precautions for use** and particular warnings (Annexes III–VI). If they don't fit: hand-on-book symbol + leaflet.
- ☐ **Batch number**.
- ☐ **Function** of the product, unless obvious.
- ☐ **Ingredients list** headed "Ingredients", INCI names, descending order by weight (under 1 % any order). Colourants by CI number. Fragrance allergens listed individually above threshold (0.001 % leave-on / 0.01 % rinse-off). Nanomaterials marked "[nano]".
- ☐ **Language** of the member state where sold for content, durability, precautions and function. INCI stays INCI.
- ☐ Text **legible, visible, indelible**. No legal minimum height for cosmetics: use ≥ 1.2 mm x-height anyway.

Claims you cannot make

- "Heals", "cures", "anti-inflammatory", medicinal effects: that makes it a medicine.
- "Free from parabens" and similar denigrating "free from" claims (Reg. 655/2013 common criteria).
- "Dermatologically tested", "hypoallergenic", "98 % natural": only with documented evidence.

B. Food supplements

- ☐ The name "**food supplement**" (in the local language, exact wording).
- ☐ Names of the categories of substances or an indication of their nature.
- ☐ **Recommended daily portion.**
- ☐ Warning: "**Do not exceed the recommended daily dose**".
- ☐ Statement that supplements **should not be used as a substitute for a varied diet**.
- ☐ Warning: "**Keep out of reach of young children**".
- ☐ Ingredients list, allergens emphasised, nutrition table per daily portion with % NRV where applicable.
- ☐ Net quantity, best-before date, lot, storage conditions, name and address of the food business operator.
- ☐ Minimum x-height **1.2 mm** (0.9 mm if largest surface < 80 cm²).
- ☐ Health claims only from the EU register (Reg. 1924/2006). No "cures", "prevents", "slimming".
- ☐ Notification to the national authority before marketing (varies by country).

C. Candles

- ☐ **EN 15494** safety pictograms (at least the 3 included in `simboli/`): never leave unattended, keep away from children and pets, keep away from flammable things. Also in text.
- ☐ Recommended use instructions: trim wick to 5 mm, max 4 hours, do not move while lit, burn on a heat-resistant surface.
- ☐ **CLP (Reg. 1272/2008)**: if the wax + fragrance mixture is classified hazardous (common with essential oils and fragrance loads), you need pictogram, signal word, H/P statements, supplier name and phone, allergens. Ask your fragrance supplier for the SDS.
- ☐ Net weight (g), indicative burn time, lot, producer name and address.

D. Packaging environmental labelling

- ☐ Italy (D.Lgs. 116/2020): for each separable component, the **material code** (Dec. 97/129/EC), e.g. "Jar: GL 70 · Cap: PP 5 · Label: PAP 22", plus a sorting statement. France: Triman logo + Info-tri. Check the country you sell in.
- ☐ Can sit on the label, outer pack or, for small packs, online via QR/link if indicated.

E. Before sending to print (any product)

- ☐ All mandatory texts present, in the right language

- ☐ No typos in INCI and warnings (copy-paste from the formula, never retype)
- ☐ EAN barcode with quiet zone, black on white, not scaled below 80 %
- ☐ Lot and expiry: space left for inkjet, or included on the label
- ☐ Paper proof applied to the real container: curvature, legibility, overlap
- ☐ Written approval (email) from the client / responsible person before the run

Label Kit — Checklist current to the regulations cited; always check for later amendments.
